

Care groups

Care groups are the most effective way to:

Share ministry needs

Meet ministry needs

Involve everyone in the class

Grow developing Christians

Foster and build lasting relationships

Every absentee is assigned to someone in his/her care group on Sunday morning for contact that week.

Multi-purpose contact:

- To share that he/she was missed in class and they are loved by the class members
- Ask for prayer requests
- Share prayer requests from other class members
- To share of upcoming events

The contact should be made as soon as possible, preferably within 36 hours.

(Absentees should be encouraged and recognized when he/she returns to class)

Who should be in a care group? – Every person on our class ministry list (enrolled) including those who would be in our class but are serving in other areas of Bible study in the church and prospects the class is praying for.
